Apple II & Macintosh Products Summer/Fall 1996

How to Use This Catalog

The majority of the ads in this catalog are for products that are available directly from EGO Systems. For any of these products, you can contact EGO Systems directly using the information shown at the bottom of pages 2 through 13 (and page 20). Pages 2 through 11 (and 20) show EGO Systems' IIGS products, while pages 12 and 13 show our Macintosh products.

The products on pages 14 through 19 are marketed and sold by companies other than EGO Systems. These companies are: Alltech Electronics (page 14), The Byte Works, Inc. (page 15), *Juiced GS* magazine (page 16), Sequential Systems (page 17), and Softdisk Publishing (pages 18 and 19). If you are interested in one of the products shown on pages 14 through 19, please contact the appropriate company, *not* EGO Systems!

What's New in This Catalog?

This time around, we've got a couple of new advertisers (*Juiced GS* and Softdisk), plus, we've got six new products, one of which can be used with any Apple IIGS or Macintosh. The first new product is the AppleWorks GS Translator for GraphicWriter III (page 4). The second new product is the new KansasFest 1996 video (available in September 1996, page 7). The next two products are a couple of IIGS-specific CD-ROMs (page 20). If you've got a IIe, you'll want to check out the TransWarp IIe (page 8). The last new product is the Magnum 144 Fax modem. This is an external Fax modem that works with any Macintosh, or any IIGS (page 7).

How to Keep This Catalog Coming to You

If you want to see more Apple IIGS & Macintosh catalogs similar to this one, you have to let us know! To do this, whenever you order *any* product from this catalog (either from EGO Systems or one of the other vendors) be sure to mention that you saw the product in this catalog! If you don't, we won't know that the catalog is working! (And, if you don't see anything that you want in this catalog, but you want us know that you appreciate getting it, give us a call at 423-843-1775!)

How to Stop This Catalog From Coming to You

If you no longer own an Apple IIGS or a Macintosh and you don't want to receive any more catalogs from EGO Systems, please let us know by either sending us a postcard or some e-mail. You can also call us at 423-843-1775 to have us take your name off of our mailing list.

Special Bundle Prices

If you want to save a bundle on some of the EGO Systems products in this catalog, try *ordering* a bundle:

AppleWorks GS & RTF Translators for GraphicWriter III - $35 (Save $4.90)
AutoArk/Balloon Bundle - $55 (Save $5)
KansasFest 1992/1995/1996 Video Bundle - $54.95 (Save $9.90)
Magnum Modem/PMPFax - $154.95 (Save $9.95)
Magnum Modem/ANSITerm - $134.95 (Save $9.95)
Magnum Modem/ANSITerm/PMPFax - $209.95 (Save $19.90)
Pointless/TypeSet/TypeWest Bundle - $70 (Save $15)
TimeOut AboutTime/DiskTools/ShrinkIt Plus/Statistics Bundle - $150 (Save $24.80)
Shrink II/Teach Translator Bundle - $50 (Save $14.90)
Deja][/Shrink II Bundle - $100 (Save $19.95)
Deja][/Shrink II/Teach Translator Bundle - $120 (Save $24.85)
(Shipping charges, if any, still apply to all bundles.)

Contacting EGO Systems on the Internet

To contact EGO Systems on the Internet, simply send e-mail to either diz@chattanooga.net. If you have access to the World Wide Web, point your web browser towards the URL - http://www.hypermall.com/ego/index.html

Legal Mumbo Jumbo

All products sold by EGO Systems have a 30-day Money Back Guarantee. Simply return any product (with all materials intact) within 30 days and you'll get a complete refund (minus shipping costs). EGO Systems takes no responsibility for the products offered or claims made on pages 15 through 19 of this catalog. Addressed For Success™

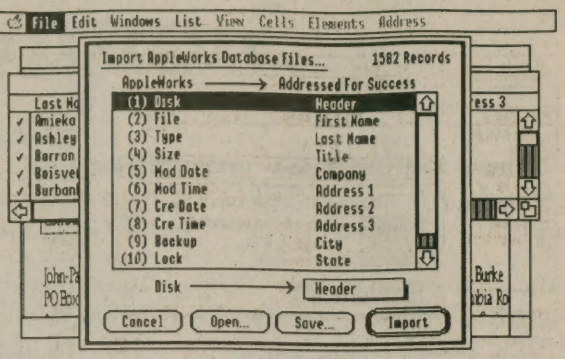
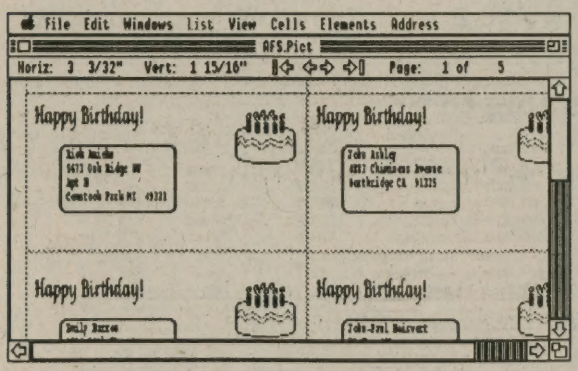
Imports ASCII text files and AppleWorks Classic v3.0 and v4.0 databases†

Includes dozens of pre-made label templates and lets you easily design your own label templates

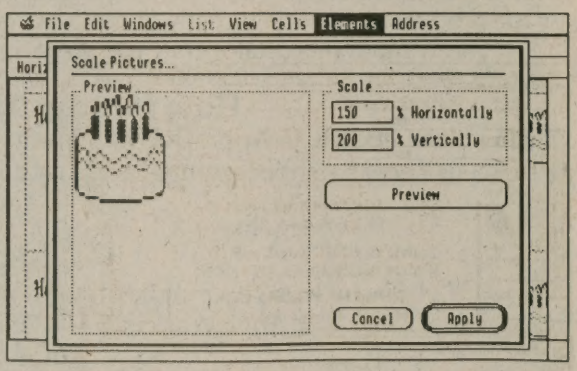


Works With All of Your IIGS Fonts — TrueTypes & Bitmaps
Prints on Any IIGS Compatible Printer
Lets You Select "By Example" the Records You Want to Print
Lets You Easily Specify a Return Address For All Your Labels



Lets you print up to three different graphics on each label

Allows you to individually scale each graphic for the best printing results



You can do all of these things, and much more, with Addressed For Success™! Addressed For Success is the only desktop-based, label design and printing application available for the IIGS. It's powerful, versatile, and extremely easy to use. Best of all, Addressed For Success costs only $35! So, whether you need to print a dozen labels or 1,200, Addressed For Success is exactly what you need to make yourself, and your labels, look great!

To order Addressed For Success v1.1, send a check or money order for $35 in U.S. funds to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. (Price includes first class shipping to North America and surface mail to the rest of the world. For air mail delivery outside North America, add $3.) If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. TN residents add 7.75% sales tax. System Requirements: An Apple IIGS with System 6.0 or later, 2MB of RAM and at least one 3.5-inch disk drive. A hard drive and 4MB of RAM are strongly recommended! †Addressed For Success v1.1 can not *directly* import AppleWorks Classic v5.0 or v5.0.1 databases. However these databases can easily be imported into Addressed For Success by first using AppleWorks to save them as ASCII text files. Addressed For Success was written by Michael Lutynski. Addressed For Success is a trademark of EGO Systems. AppleWorks is a trademark of Claris.

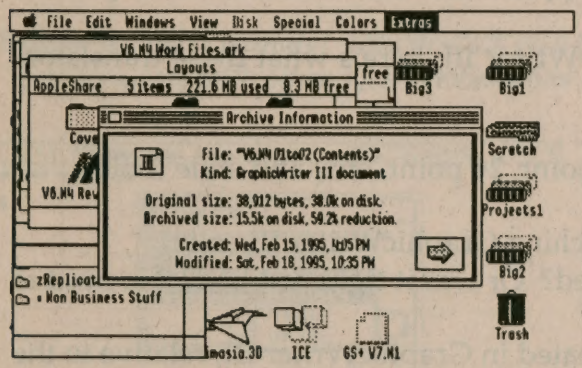
Imasio.3D
GS+ V7.M1

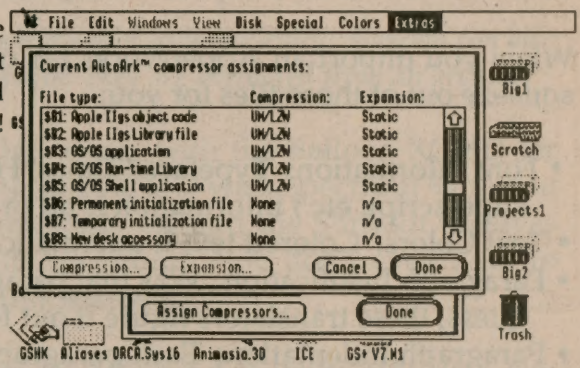
Allows you to encrypt and password protect sensitive files on your IIGS!

AutoArk™ is the *original* integrated file compression program for the Apple IIGS. It lets you compress a file and then, when you need to use it, AutoArk steps in and automatically expands the file for you. Then when you've finished with the file, AutoArk steps in again and automatically recompresses the file for you! AutoArk also lets you encrypt and password protect those files that you want to keep safe from prying eyes!

AutoArk v1.1 also includes a new Finder extension, Smart Names, that lets you compress and expand files simply by changing their names! For example, if you have a file named "UGroup.List"and you change its name to "UGroup.List.ark", Smart Names will see the change, and immediately tell AutoArk to compress the file. When you remove the ".ark" from the end of the file's name, Smart Names will tell AutoArk to expand the file back to its original size. You can also set up folders with names ending in ".ark" and when you copy a file into the folder, Smart Names will tell AutoArk to compress the file!



You get to decide which file types get compressed and which ones don't!



Lets you see exactly how much disk space your compressed files are saving!

AutoArk originally sold for almost $50, but now it's just $35! And, if you want to save even more money, you can order our AutoArk/Balloon bundle, and get both great programs for just $55! (Balloon is our popular "ShrinkIt in an NDA" program. Balloon normally sells for $25, so you save $5 by getting both programs at the same time.) If you are a previous owner of AutoArk, you can upgrade to v1.1 for just $10! You can also get the new AutoArk manual for just $5 more [$15 total]. Just give us a call for details, and be sure to have your AutoArk serial number handy.

To order AutoArk v1.1, send a check or money order for $35 in U.S. funds to: EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343. (Price includes first class shipping to North America and surface mail to the rest of the world. For air mail delivery outside North America, add $3.) If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. TN residents add 7.75% sales tax. System Requirements: An Apple IIGS with System 6.0.1 or later, 2MB of RAM and at least one 3.5-inch disk drive. A hard drive and 4MB of RAM are strongly recommended! AutoArk was written by D. Proni. Smart Names was written by Josef W. Wankerl. AutoArk, Balloon, and Smart Names are trademarks of EGO Systems. Apple IIGS is a trademark of Apple Computer, Inc.

Page 1

The great thing about GraphicWriter III is that it can use "translators" to import formatted text files created by other programs. With these new translators from EGO Systems, you can import AppleWorks GS word processing files *and* RTF files that were created on another computer! ("RTF" stands for "Rich Text Format." It's a computer-independent file format that is supported on lots of different computers.)

When you import an AppleWorks GS or RTF file into GraphicWriter III, here's what these translators squeeze out of those files for you:

- Font Information: Typeface (Times, Helvetica, etc), size (10 point, 24 point, etc.) and style (bold, superscript, etc.) information is all preserved!
- Text Colors: Colored text is automatically given the best-matching GraphicWriter III color!
- Paragraph Justification: Was that paragraph originally centered? Or was it right justified? No need to guess, these translators figure it out for you!
- Paragraph Indentation: Each paragraph's indentation is recreated in GraphicWriter III, relative to the columns in your page layout!

And, the RTF Translator for GraphicWriter III doesn't just import RTF files, it *exports* them as well! (The AppleWorks GS translator is import *only*.) This is a great way to share the text you create in GraphicWriter III with all those non-IIGS-owning computer users out there!

The AppleWorks GS and RTF Translators for GraphicWriter III require GraphicWriter III v1.1 or later. The AppleWorks GS Translator is $14.95 and the RTF Translator is just $24.95. Or, you can get both translators for just $35! All of these prices *include* shipping to anywhere in the world!

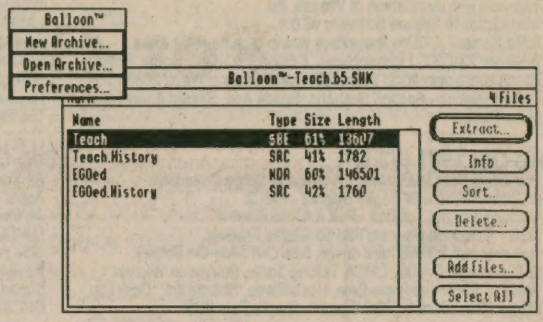
To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

1-800-662-3634 or 1-423-843-1775 or 1-423-843-0661 (FAX)

EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343-1808

Balloon™

Balloon is a new desk accessory (NDA) that allows you to easily create and maintain NuFX (ShrinkIt) archives on your IIGS. Since Balloon is a NDA, you no longer have to run GS-ShrinkIt to extract files from ShrinkIt archives! So, if you use a desktop telecommunications program, like Spectrum from Seven Hills Software, you can manipulate your ShrinkIt archives while you are still online!



Here are a few of Balloon's features:

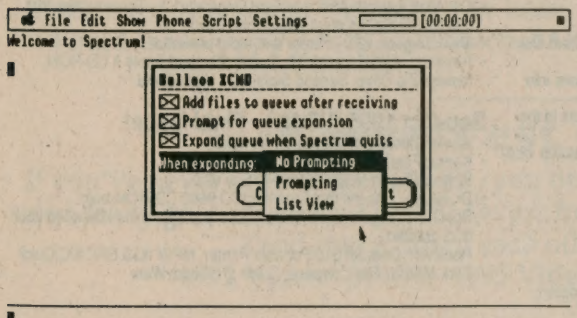
Balloon can extract files from ShrinkIt archives and create new ShrinkIt archives.

Balloon can add/remove files to/from existing ShrinkIt archives.

Balloon recognizes ShrinkIt archives that are enclosed in Binary II, MacBinary and America Online for Macintosh "wrappers."

Balloon lets you have multiple archive and file information windows open at once.

Balloon is Finder friendly! Double-click on a ShrinkIt archive and Balloon opens it automatically! Balloon can also communicate with other system extensions to automatically open files after they are extracted from an archive!



The Balloon package also comes with the Balloon XCMD for Spectrum v2.0. By using this XCMD with Spectrum v2.0, you can have Balloon automatically expand the ShrinkIt archives that you download with Spectrum! You don't even have to open the Balloon new desk accessory!

In addition, the Balloon XCMD for Spectrum v2.0 lets you write Spectrum scripts that give you full access to the Balloon new desk accessory and all its capabilities. For example, you can write a script that will create a new archive and add files to it. Or, you could write a script that would open an existing archive and extract all the files from it to a folder that you specify!

To order Balloon, send a check or money order for $25 in U.S. funds to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN 37343. You can also order with your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. TN residents add 7.75% sales tax. System Requirements: An Apple IIGS with System 6.0.1 or later, 2MB of RAM and a hard disk drive. More RAM is strongly recommended! Balloon was written by Josef W. Wankerl. Balloon is a trademark of EGO Systems. ShrinkIt is a trademark of Andy Nicholas. Spectrum is a trademark of Seven Hills Software, Inc. America Online is a trademark of America Online, Inc. Apple IIGS & Macintosh are trademarks of Apple Computer, Inc.

GS+ Magazine Back Issue Quantity Purchase Prices

1 to 5 Issues - $5/Magazine, $6.50/Disk, $10/Magazine & Disk Set
6 to 12 Issues - $4/Magazine, $5.50/Disk, $6/Magazine & Disk Set
13 to 20 Issues - $3/Magazine, $4.50/Disk, $5/Magazine & Disk Set

All issues shown are available as Magazine and Disk sets.
All programs require IIGS System Software v6.0.1 unless otherwise noted.

All prices include postage and handling. (Orders will be sent First-Class to the U.S., Air Mail to Canada and Mexico, and surface mail to all other countries. For Air Mail to all other countries, add an additional $3 per issue. If you pay by credit card, you will be charged only for the additional postage needed.) *Tennessee residents must add 7.75% sales tax.* Mail back issue requests to: *GS+* Back Issues, c/o EGO Systems, 7918 Cove Ridge Rd., Hixson, TN, 37343-1808; or call 1-800-662-3634 (or 423-843-1775), Monday through Friday, 9 a.m. to 5 p.m. Eastern Time, to order or verify availability. Please include a list of second choices and/or your phone number and/or an e-mail address with all orders placed by mail (in case we are sold out of an issue)! For MasterCard or VISA orders placed by mail, also include your credit card number, expiration date, and signature. *Any issues not listed are sold out!*

Have Fun With Your IIGS!

Pick 'n' Pile - $20

Pick 'n' Pile is a great game for your IIGS that would probably remind you of Tetris, if Tetris had walls, flowerpots, wildfires, bombs, and death heads! In Pick 'n' Pile, your job is to clear the screen of various colored balls, by stacking them on top of each other. As you try to accomplish this task, some helpful items appear to make your job easier (like the bombs), and other items appear to make your job more difficult (like the death heads). It's extremely addictive, and a lot of fun!

System requirements: System 5.0.4 or later, 1MB of RAM, and one 3.5-inch drive.
Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world.
Air Mail shipping is an additional $3.

Magnum 14.4 Fax Modem - $79.95

Tired of poking along at 2400 bps? Hook a Magnum 14.4 modem to your IIGS or Macintosh and blast the doors off your telcom program! Want to send a Fax? With the appropriate software (PMPFax on the IIGS or any Fax software package on the Mac) and the Magnum modem, you can send Faxes at up to 14,400 bps! So stop driving on the backroads and get into the fast lane of the Information Superhighway!

System requirements: IIGS or Macintosh. Includes Mac software and all cables needed for both IIGS and Macintosh. (IIGS software is *not* included!) Price includes First Class shipping to U.S. Surface mail, add $10. Air mail to Canada, add $5. Air mail to Mexico, add $10. Air mail to Europe, add $20. Air mail to Asia or Africa, add $25. Air mail to the Pacific Rim, add $30.

Twilight II Screen Saver - $29.95

Twilight II is the *best* screen saver that you can buy for your Apple IIGS . It's also the most entertaining screen saver that you can get for your IIGS! Twilight II comes with over 40 cool displays that you can use to prevent screen burn-in while your IIGS is idle. Light up your screen with a fireworks display or play any PaintWorks animation you have handy. Or, let Twilight II pick a display at random!

System requirements: System 6.0 or later, 1.25MB of RAM, one 3.5-inch drive and a hard drive. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3.

KansasFest Videos - $24.95 & $19.95

If you've never been to KansasFest, you owe it to yourself to check out these videos! With them you'll find out what really goes on when Apple II-lovers from around the world get together to celebrate their favorite computer (and make fun of each other). Hey! It's cheaper than a flight to Kansas City!
1992 Video - $19.95, 1995 Video - $19.95, 1996 Video - $24.95, All Three Videos - $54.95

Requirements: VHS VCR and a desire to laugh. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3 per video.

PaceMark SuperRam IV - $109.95

Need more RAM for your IIGS? The PaceMark SuperRam IV is one of the least expensive 4MB RAM cards available today! Its low price, one-year warranty and 100% compatibility make it a great deal! But hurry, quantities are limited!

System requirements: Apple IIGS. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3.

To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

1-800-662-3634 or 1-423-843-1775 or 1-423-843-0661 (FAX)

Get Productive With Your IIGS!

Pointless - $35

Pointless is a control panel that will make all of your IIGS documents look better than ever before by allowing you to use TrueType fonts on your IIGS. And, when you combine Pointless, TrueType fonts, and your StyleWriter, DeskJet or LaserJet printer, you get output that looks like it came off of a high-end laser printer! (Pointless also does wonders for ImageWriter printouts!) Pointless makes all of your on-screen text look better too!

System requirements: System 5.0.4 or later and one 3.5-inch drive. (A hard drive and 2MB of RAM are strongly recommended!) Price includes First Class shipping to U.S., Canada, Mexico, and surface mail shipping to the rest of the world. Air Mail shipping is an additional $3.

TypeSet - $25

TypeSet is the perfect companion for Pointless. It helps you manage your TrueType fonts by providing you with three great utilities in one new desk accessory: a What-You-See-is-What-You-Get Font menu (to make sure you always pick the right font), switchable font sets (to make sure you only use the fonts you need), and an extensive set of font reports (to help you easily build a catalog of all your TrueType fonts).

System requirements: System 5.0.4 or later and Pointless. (A hard drive and 2MB of RAM are strongly recommended!) Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is $3 extra.

Switch-It! - $39.95

Switch-It! is a program switcher and launcher that allows you to have more than one IIGS application in memory at the same time. You can switch between these applications instantly, just by picking the application you want to work with from the menu bar at the top of the screen! Switch-It! also comes with several new desk accessories (NDAs), that allow you to easily copy data from one application that you have in memory, and then paste it into another application.

System requirements: System 6.0 or later, 2MB of RAM and a hard drive. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $4.

TransWarp IIe - $89.95

Got an Apple IIe? Is it too slow? Plug in a TransWarp IIe and start computing at Warp speed! Completely compatible with all IIe hardware and software the TransWarp IIe will make your IIe feel like a new computer! Hurry and get yours now! Quantities are limited!

System requirements: Enhanced Apple IIe. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $5.

ZipGS Accelerator - $174.95

Are you tired of waiting on your IIGS? Well then, plug in a ZipGS accelerator card and get ready to blow the doors off of your favorite programs! With a ZipGS 8/16 accelerator installed, your IIGS will run at a snappy 8MHz instead of the wimpy 2.6MHz it's running at now. The Finder will run faster, AppleWorks GS will run faster, AppleWorks Classic will run faster, in fact, just about everything that you do with your Apple IIGS will happen faster! And the ZipGS is simple to install! All you have to do is remove the CPU chip, plug the ZipGS into the CPU socket, plug the ZipGS circuit board into either slot 3 or 4 and then you are ready start computing at ludicrous speed!

System requirements: A ROM 01 or ROM 03 Apple IIGS and a burning desire to go faster!
Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to the rest of the world.
Air Mail shipping is an additional $10.

To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

1-800-662-3634 or 1-423-843-1775 or 1-423-843-0661 (FAX)

EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343-1808

Get Creative With Your IIGS!

Animasia 3-D - $89

Animasia 3-D is a program that allows IIGS users to create animations of 3-D objects using a variety of shapes and cameras, and then re-play those animations or save them as standard PaintWorks animation files. Once an animation is saved as a PaintWorks animation, it can then be used with any IIGS program (like HyperStudio and HyperCard IIGS) that supports PaintWorks animations!

System requirements: System Software v6.0.1, 2MB of RAM and a 3.5-inch drive. (A hard drive and an accelerator are very strongly recommended.) Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $10.

DreamGrafix - $39.95

DreamGrafix is the *only* IIGS paint program that lets you create spectacular graphics using the full 3200-color capabilities of your IIGS! DreamGrafix also allows you to paint in any of the IIGS's other graphics modes: 320, 640, even 256-color mode! DreamGrafix is great for creating new graphics or for touching up graphic files that you bring from another computer to your IIGS.

System requirements: System Software v5.0.4, 1.25MB of RAM and a 3.5-inch drive. (A hard drive is very strongly recommended.) Price includes First Class shipping to U.S., Canada, Mexico. Surface mail to rest of the world is an additional $5. Air Mail shipping is an additional $10.

Golden Orchard Apple II CD-ROM - $59.95

Got a CD-ROM drive hooked to your IIGS? Then this CD-ROM is a *must have!* The Golden Orchard Apple II CD-ROM contains over 600MB of great stuff, *just for your Apple II and Apple IIGS!* Applications, graphics, fonts, sounds, AppleWorks templates, and a complete collection of IIGS System Software are all included on this great CD-ROM! And that's just the tip of the iceberg! The Golden Orchard Apple II CD-ROM is your one-stop Apple II software library!

System requirements: System Software v6.0 or later, and a CD-ROM drive.
Price includes First Class shipping to U.S., Canada, Mexico, and Air Mail shipping to rest of the world.

TypeWest Volume 1 - $25

TypeWest is another great companion for Pointless. It's a collection of 40 professionally-designed TrueType fonts that you can use in all of your documents. If you've just bought Pointless, TypeWest is a great way to start your TrueType font collection! If you already have Pointless, the TypeWest fonts will help add a professional touch to all your documents!

System requirements: TypeWest requires Pointless for use on a IIGS. (The fonts in the TypeWest collection are also usable on any Macintosh running System 7.0 or later.) Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3.

To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

1-800-662-3634 or 1-423-843-1775 or 1-423-843-0661 (FAX)

EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343-1808

Great IIGS Utilities!

The Complete Guide to SheppyWare - $29.95

The Complete Guide to SheppyWare is a collection of the complete works of prolific Apple II/IIGS shareware author Eric Shepherd. This collection includes over 25 Apple IIGS-specific utilities, as well as programs for regular Apple IIs and the Macintosh. Also included is complete *printed* documentation (in the form of a nicely-bound 100+ page booklet) for each and every program that Sheppy has ever written!

System requirements: Includes programs for the Apple II, IIGS and Macintosh. System requirements vary. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $5.

GNO/ME - $89

GNO/ME stands for the "GNO Multitasking Environment." GNO/ME is a command shell that brings multitasking to your IIGS. Using GNO/ME, you can start up multiple tasks (like compiling different parts of a program) and have them execute concurrently! GNO/ME can also be used as a replacement for the ORCA command shell and is compatible with all of the ORCA utilities and languages

System requirements: System 6.0 or later, 2MB of RAM and a hard drive. (More RAM is strongly recommended for multitasking!) Price includes First Class shipping to U.S. Surface mail shipping to the rest of the world is an additional $5. Air Mail shipping to the rest of the world is $10.

HardPressed - $35

HardPressed is compression software that works behind the scenes to give you up to twice a much space on all of your disks! HardPressed will transparently compress and expand files as you use them . . . Open a file and HardPressed expands it. Save a file and HardPressed automatically compresses it. It's that simple! With HardPressed installed, the only difference you'll notice is you've got more disk space!

System requirements: System Software v6.0 or later, 2MB of RAM (a hard drive is strongly recommended). Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3.

Splat! - $39.95

Splat! is a source level debugger for use with ORCA/C, ORCA/Modula-2, and ORCA/Pascal. With Splat! installed, you can step or trace through your program's source code while your program executes! You can also view and set the values of variables and you can even view complex data structures, like Event records, and watch their contents change as your program executes! If you program the IIGS, you need Splat!

System requirements: System 6.0 or later, 2MB of RAM, a hard drive and either ORCA/C, ORCA/Modula-2 or ORCA/Pascal. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $4.

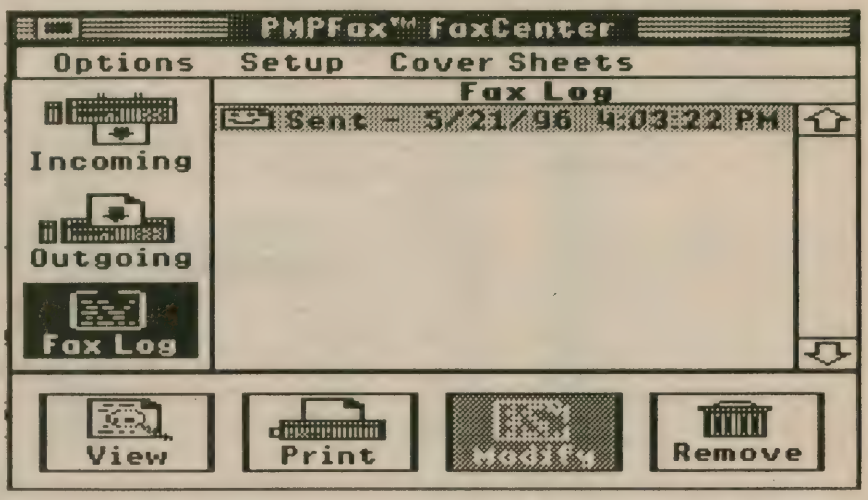
To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

1-800-662-3634 or 1-423-843-1775 or 1-423-843-0661 (FAX)

EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343-1808

PMPFax™

Here's a crazy idea for a product . . . IIGS Fax software . . . *that actually works!* No joke! Simply install PMPFax on your IIGS, reboot, and you've got a complete Fax center right on your computer! Send Faxes, receive Faxes, forward Faxes, build phone books of Fax numbers, print out the Faxes you receive, schedule Faxes for later transmission, create your own cover sheets using Super-High-Resolution graphics, and *much, much, much* more!



With PMPFax installed, sending a Fax from your favorite desktop application is simple! Just hold down the option key when you pick Print from the File menu, and PMPFax intercepts the printed pages, faxing them to the recipient (or recipients) of your choice! (And, yes, PMPFax also works with new desk accessory editors like EGOed™!)

PMPFax works with just about every Fax modem out there, and it can Fax any document from any IIGS desktop program. Best of all PMPFax is just $84.95 from EGO Systems and has our 30-day, money-back guarantee! So don't delay, turn your IIGS into a high-powered Fax center today!

System requirements: System Software v6.0.1 or later, a hard drive, 4MB of RAM (at least 1.5MB of *free* RAM is required), and a Class 1, 2 or 2.0 Fax Modem. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $3.

ANSITerm™

ANSITerm was the first full-function terminal software for the IIGS that supported color ANSI emulation. The current version (2.1) adds lots of new features to this popular program that make it a great choice for IIGS telecommunications:

Fast Custom Character Generator Keeps Up with Today's High-Speed Modems!
Supports PC-ANSI, VT-100, VT-52, TTY & ProTerm™ Special Displays!
Powerful Macro Language & Support for External Script Files!
Full-Screen Text Editor Reads AppleWorks Classic WP Files & Converts Unix-type Text to Apple II!
Full Support for Xmodem, Ymodem, Zmodem, Kermit, and Binary II!
Up to 65,535 Lines Can be Held in the Scrollback Buffer!
Dialing Directory Holds up to 50 Names & Numbers!
Supports the Super Serial Card, Turbo-ASB & IIGS Serial Port!
And Much, Much More!

ANSITerm v2.1 is only $64.95 from EGO Systems. So if you've been itching to get online, order your copy today!

System requirements: Apple IIGS with 1MB of RAM, ProDOS 8 v1.9 or later, and a modem. Price includes First Class shipping to U.S., Canada, Mexico, and surface mail to rest of the world. Air Mail shipping is an additional $10.

To order, send a check or money order for the appropriate amount (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. *Please do not forget to include shipping costs (if any).* If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

AppleWorks? On a Macintosh?

If you love your new Macintosh™, but you hate the fact that you had to give up using AppleWorks™ on your Apple II, have we got a product for you!

Deja][is a Macintosh application that lets you run AppleWorks, on your Macintosh! Deja][also lets you run all of your TimeOut modules and all of your UltraMacros, without any changes! You can even load AppleWorks files to and from your Macintosh hard drive, print to your Macintosh printer, and use the Macintosh clipboard to share data between AppleWorks and your Macintosh applications!

Deja][*isn't* an AppleWorks "clone," Deja][lets you run honest-to-goodness AppleWorks right on your Macintosh! Just copy Deja][to your Macintosh hard disk, then copy a few files from your original AppleWorks v5.0 or v5.0.1 disk to your Macintosh hard disk, double-click on the Deja][icon, and boom! You're running AppleWorks!

Pricing & System Requirements

Deja][is available from EGO Systems for just $79.95. This price includes First Class or Air Mail shipping to anywhere in the world. Deja][does *not* include AppleWorks, so, you *must* have a *separate* copy of AppleWorks v5.0 or later to use Deja][! You also need a Macintosh (PowerPC or 680x0) running System 7 or later. A 68030 or later is recommended for best performance.

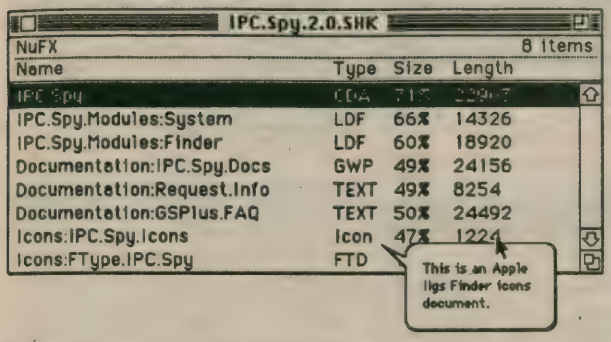
Deja][is a trademark of JEM Software. Used with permission. AppleWorks is trademark of Claris. To order, send a check or money order for $79.95 (in U.S. funds) to: EGO Systems, 7918 Cove Ridge Rd., Hixson TN, 37343-1808. If you prefer to order by credit card, you can use your Visa or MasterCard by calling us toll-free at 1-800-662-3634. Outside of North America, please call 1-423-843-1775. Or, FAX us at 1-423-843-0661. Tennessee residents add 7.75% sales tax.

1-800-662-3634 or 1-423-843-1775 or 1-423-843-0661 (FAX)

EGO Systems, 7918 Cove Ridge Rd., Hixson, TN 37343-1808

Shrink II™

If you are a Macintosh user that also owns (or you know someone that owns) an Apple II, you know what a hassle it can be to move files from one machine to another. It can be especially frustrating to send files from a Macintosh to an Apple II via modem, due to the fact that there isn't a common archive format on the two machines.



Shrink II is a new Macintosh application that solves this problem by giving your Macintosh the ability to work with ShrinkIt archives that were created on the Apple II. Shrink II also allows you to *create* ShrinkIt archives (complete with Binary II wrappers) that you can share with your Apple II-owning friends!

Even if you don't know anyone with an Apple II, Shrink II gives you access to the tens of thousands of ShrinkIt archives that you'll find online all over the world. Inside those archives you'll find thousands of files that can easily be used on your Macintosh. Files like: HyperStudio IIGS files (which can be used with HyperStudio for the Mac), graphics and sound files (which can be converted for use on the Mac), AppleWorks Classic files (which can be used with Deja][), and freeware and shareware applications that you can use on any Macintosh equipped with the popular Apple IIe-emulation card!

Shrink II opens just about every Apple II archive format (ShrinkIt, Binary II, SQueezé, Self-Extracting Archives, AppleSingle, and more!), and it can encode and decode files using the Apple II BinSCII standard. Shrink II also has extensive Balloon Help. Using it, you can open a ShrinkIt archive, point at a file in the archive, and Shrink II will tell you what kind of data is in the file!

Teach Translator™

One of the most common types of files you'll find in ShrinkIt archives is the "Teach" file. Teach files are the IIGS-equivalent of SimpleText or TeachText files on the Macintosh. Unfortunately, until now, there hasn't been an easy way to use Teach files on the Macintosh without losing all of the formatting contained in them. EGO Systems' Teach Translator for Macintosh Easy Open solves this problem by letting you open any Apple IIGS Teach file on your Macintosh as if it were just another Macintosh document! The Teach Translator retains all of the Teach file's font, size, style and foreground color information so that it shows up correctly on your Macintosh! If you have both an Apple IIGS and Macintosh, or you use Shrink II, the Teach Translator will be a big help in moving Teach files to your Macintosh!

Pricing and System Requirements

Shrink II costs $39.95 and the Teach Translator costs $24.95. But, if you order them together, you can get them both for just $50! (All prices include shipping to the United States and Canada. Air Mail shipping to anywhere else in the world is $3 extra.)

Shrink II requires a Macintosh (680x0 or PowerPC) with System 7.0 or later. Shrink II takes up approximately 400K of space on disk and requires 512K of free RAM for operation. The Teach Translator requires a Macintosh (680x0 or PowerPC) running System Software v7.0 or later *and* Macintosh Easy Open. Shrink II and the Teach Translator are "Fat" applications that will run in native mode on your Power Macintosh.

The Fine Print

Shrink II and Teach Translator are trademarks of EGO Systems. All other product names are trademarks of their respective owners. Orders for in-stock items are shipped no later than the next business day. We accept Visa and MasterCard. Personal checks and Money Orders (made payable to "EGO Systems") are also accepted. All of our products have a 30-day, money-back guarantee. If you decide you don't like one of our products, return it within 30 days (with all materials intact) and we'll give you your money back! (Sorry, shipping charges are *not* refundable.)

Our hours are 9 a.m. to 5 p.m. Eastern time, Monday through Friday.

To order, FAX us at 423-843-0661 or call:

Qty Applies.

Amaze You're Friends By What You Can Do With Your Apple IIGS!

Most people who have heard of the Byte Works know us for our famous line of ORCA programming languages—and no wonder! Even Apple Computer liked ORCA so much they picked it to become Apple Programmer's Workshop.

If you haven't kept up with recent news, though, you might not know that we've also launched a line of consumer programs. Read on to discover what they are and how I'm going to upset my accountant by practically giving them away!

Worldwide APDA Distributor

But first, I want to mention that we're now the official source for much of the technical information published by Apple Computer itself. We're the official **worldwide distributor of all Apple II APDA products** created by Apple Computer. From a DOS system disk to an Apple //c technical reference manual, we're often the only place in the world to get the complete scoop on the Apple II.

Quick Click

Our line of productivity tools includes Quick Click Calc and Quick Click Morph.

Like most Apple IIGS spreadsheets, Quick Click Calc has all the calculating power you're likely to need. Sure, we tossed in a few functions the others don't have, but so what? You probably never used all of the calculating ability of AppleWorks classic, so a few more math functions aren't very exciting.

What is exciting, though, is the visual power of Quick Click Calc. You can customize your spreadsheets like never before, even changing the height of cells to accommodate a different font in every cell—and different colors and borders, too! The charts and graphs in Quick Click Calc are far more powerful than any other Apple II spreadsheet, approaching the power of stand-alone business graphics packages. And Quick Click Calc even supports Publish and Subscribe, so your spreadsheets can automatically share data.

Quick Click Calc is all business, but Quick Click Morph is mostly for fun. You can create movies showing one object shifting to another, like our trademark morph of my daughter changing to a cat. You can get a point across in a classroom, as with the evolution morph that shows a prehuman skull gradually changing to a human. And you can entertain yourself by combining public figures or looking to see what the child of two people might look like—what a blast at a wedding!

Please don't tell my accountant, but I'd like you to have these programs so much that if you order before November 30th and mention this ad, **I'll give you either one for just $45**—a savings of $15 off the retail price of $60. And if you **buy both** Quick Click Calc and Quick Click Morph, I'll let them go **for just $75,** and throw in a copy of Quick Click TIFF Reader—a $10 value—**free**! You **save $55!**

Your Computer Needs Our Catalog!

Whether you see something in this brief ad that interests you or not, you owe it to yourself (and your computer!) to get a copy of our catalog. After all, it's a **free catalog**. Even if you don't need anything from it, you can always use it to paper train your dog.

With over 80 Apple II products, no one should be without our catalog! It's free. Just send your name and mailing address and ask for a copy.

Question: Are you getting enough information about products and development in the Apple II world?
If your answer is no, then you should subscribe to ...

Juiced.GS

The Apple II world's premier IIGS-specific newsletter!!

Last year's demise of several popular publications created an information void in the IIGS community that begged to be filled. Juiced.GS has done just that. The quarterly printed publication launched in early 1996 is dedicated to the people and products that keep the IIGS community going strong.

If you're serious about your IIGS, you won't want to be without Juiced.GS

Each issue will be at least 20 pages and offer a variety of information for IIGS users — commercial software and hardware reviews, how-to articles, tips and tricks on getting the most out of your computer, articles and commentaries on current issues facing the Apple II world, letters from readers, and the latest news from the software and hardware development fronts.

Juiced.GS is edited and published by Max Jones, a journalist with 21 years experience on daily newspapers. He is currently the editorial page editor of the Tribune-Star, a 42,000-circulation daily in Terre Haute, Indiana.

Three subscription options are available:

- **1.** All 1996 issues (including the two already-published editions): $14 in the U.S. and Canada; $20 elsewhere.
- **2.** All 1996 issues and a subscription for 1997: $28 in the U.S. or Canada; $40 elsewhere.
- **3.** The final two issues (late summer, fall) of 1996, and a 1997 subscription: $21 in the U.S. and Canada; $30 elsewhere.

In addition to these options for new subscribers, current subscribers can now *RENEW* for 1997 for $14 in the U.S. and Canada; $20 elsewhere.

To subscribe:

Indicate your subscription option from the choices above (1, 2, 3, or renewal) and send a check or money order in U.S. funds to:

Max Jones
Juiced.GS
2217 Lakeview Drive
Sullivan, IN 47882

Sorry, no credit cards or purchase orders.

Make checks payable to Max Jones.

In addition to your mailing address, please include an e-mail address if available.

All issues delivered via first-class mail.

Sale prices good through August 31, 1996.

APPLEWORKS GS TEMPLATE SET #1

Add 8 terrific AppleWorks GS templates to your collection today and do new things tomorrow! Includes **Measure for Measure #1 and #2** (for unit conversion), **Check-Might** (a checkbook balancer), **Medical Expenses**, **Octopress** (a page layout template), **Greeting Card**, **Spencer's Pages** (a menu layout template), and **Vacation Costs**. *Regularly $14.95. On sale for just* **$9.95**.

APPLEWORKS GS TEMPLATE SET #2

Your AppleWorks GS template collection won't be complete without the 8 templates in Set #2. Includes **Closing Costs**, **Easy News** (a newsletter layout template), **Grant Finder**, GS Booklet (a pamphlet layout template), **Fund Raising Template**, **Stock Tracker**, **Super Grade Sheet**, and **Draft Pack** (a drafting picture template). *Regularly $14.95. On sale for just* **$9.95**.

DESKTOP UTILITY PACK I

This collection of three IIgs utilities lets you monitor memory usage (**Memory Monitor**), quickly view pictures and play sounds (**SeeHear**), and add new patterns to your desktop (**Backdrop**). *Regularly $14.95. On sale for just* **$9.95**.

DESKTOP UTILITY PACK II

You'll flip over the tricks your IIgs will do after you install **MenuWiper** (animates your menu bar), **WinZip** (turns menu bars into window shades that "roll up"), **II Scroll** (adds an extra set of arrows to scroll bars), and **Auto Info** (puts file details in a bar at the bottom of your screen). *Regularly $14.95. On sale for just* **$9.95**.

DESKTOP UTILITY PACK III

You'll love the control you'll gain over your system and the organization you'll enjoy with **Copy Control** (a finder extension that gives you four very useful file copying options), **Shifty List** (lets you select which INITs your system boots with), and **Stick-It** (lets you leave virtual "sticky notes" on your IIgs desktop). *Regularly $14.95. On sale for just* **$9.95**.

GRAPHIC DESIGN PACK

Attention artists! Get two terrific graphic programs for one low price. **Threeder** lets you create amazing 3-D stereograms that you can view on screen or print to paper, and **Soft Palette** gives you the tools you need to paint gorgeous pictures on your IIgs. *Regularly $14.95. On sale for just* **$9.95**.

HOME OFFICE PACK

The four programs in this pack are must-haves for IIgs owners who sometimes have to get serious. Use **Address Book** to put your little black book on computer, **Area Codes** to locate codes for long distance calls, **GuardDog** to password protect your system, and **WordWorks Pro** to do all your word processing. WordWorks Pro by itself is worth far more than you'll pay for this pack! *Regularly $19.95. On sale for just* **$9.95**.

DARK DESIGNS TRILOGY

If you love Dungeons & Dragons™ and enjoy a challenging game, this role-playing trilogy is just the ticket. One of the best trilogies every created for IIgs computers, **Dark Designs** delivers hours and hours of game-playing fun! *Regularly $19.95. On sale for just* **$9.95**.

WORD PUZZLE PACK

This three-game collection is a word game lover's delight! Expand your vocabulary with **Word-Up!**, play a game of "hangman" with **Key Words**, and locate all of the words hidden in each puzzle with **Word Finder**. *Regularly $14.95. On sale for just* **$9.95**.

CARD GAME PACK

Play cards as often as you wish against an untiring partner—your IIgs—with this exciting pack of four games! Enjoy hours and hours of these challenging games: **Gin Rummy**, **Pyramid G-S** (solitaire), **Blackjack Tutor**, and **Canasta**. *Regularly $19.95. On sale for just* **$9.95**.

PUZZLE GAME PACK I

If you like the mental gymnastics of solving puzzles, this pack's for you. Pit your mind against **Marbleaire** (a marble-jumping game), **Picture Puzzler** (a jigsaw game), **Rainbows** (a color-matching game), and **Square Off** (a connect-the-dots-style game). *Regularly $14.95. On sale for just* **$9.95**.

PUZZLE GAME PACK II

Run from the chess pieces in a board game called **SargoNoids**. Learn to stop quickly in a board game named

OVER FOR MORE ➢ ➢ ➢

Freeze! Pay close attention to light properties in a puzzle game called **Reflexion**. And think ahead in an addictive puzzle game named **Towers**. *Regularly $19.95. On sale for just* **$9.95**.

ACTION GAME PACK I

If you find games where you shoot everything in sight to be fun and maybe a little cathartic, you've gotta get this one! Includes **Chip Runner**, **Legend of Star Axe** (a shoot-em-up space flying game), and **Son of Star Axe** (the sequel). *Regularly $19.95. On sale for just* **$9.95**.

ACTION GAME PACK II

This action game trio requires you to kick butt and collect various objects in order to advance to every new level. Think of yourself as Chuck Norris with lots of attitude when playing **Sylvan Idyll**, **Ether Quest**, and **Catacombs GS**. *Regularly $19.95. On sale for just* **$9.95**.

ADVENTURE GAME PACK

You'll feel like Indiana Jones as you fight and scrape your way through these three action adventures: **Mouse in the House**, **Wizardry Quest**, and **The Royal Quest**. *Regularly $14.95. On sale for just* **$9.95**.

SPENCER'S CORNER PACK

Put the artwork of the very talented Spencer to work on your IIgs! This collection of the best 25 **Spencer's Corners** ever publishing on SOFTDISK G-S will provide you with some of the coolest templates ever created for greeting cards, newsletters, menus, and much more. *Regularly $14.95. IIGS CD-ROMs!

By special arrangement with Shareware Solutions II, EGO Systems is pleased to announce the availability of two new CD-ROMs specifically for your IIGS!

Script Central: The CD-ROM - $79.95

On this CD-ROM you'll find the complete run of Resource-Central's great HyperCard IIGS diskazine, Script Central! That's 22 issues (44 disks) worth of HyperCard IIGS stacks, demos, sounds, graphics and other great stuff! But that's not all! You'll also get all six-disks of HyperCard IIGS, and all six disks of Apple IIGS System Software v6.0.1! All on one disk and all for one low price!

System requirements: System 6.0 or later, the HFS FST, 2MB of RAM, CD-ROM drive and a hard drive. Price includes shipping to anywhere in the world!

Studio City/Stack Central: The CD-ROM - $99.95

This CD-ROM contains the complete 30 issue run of Resource-Central's HyperStudio diskazine, Studio City (also known as Stack Central). That's 60 disks worth of HyperStudio stacks, demos, sounds, graphics, and well, you get the idea. And, like the Script Central CD-ROM, you'll get everything you need to run these stacks, including the HyperStudio run-time module and all six disks of Apple IIGS Systems Software v6.0.1! All on one compact disc!

System requirements: System 6.0 or later, the HFS FST, 2MB of RAM, CD-ROM drive and a hard drive. Price includes shipping to anywhere in the world!

Special Bundle!

Buy both CD-ROMs for just $150!
You'll save $29.90 and get over 200MB of great stuff for your Apple IIGS!
